

# World Food Programme Logistics

## On any given day...

Over 3,000 WFP logistics staff manage an average of:

- 5,000 trucks, 20 ships and 70 aircraft
- A network of 650 warehouses worldwide
- Over 800 WFP-owned trucks and 35 fleet workshops

## Supply Chain Management

In 2014, WFP:

- Distributed 3.2 million metric tons of food
- Organized the transportation of 1.9 million metric tons of food by sea
- Launched a new food supply chain management system (LESS) in major operations
- Developed supply chain dashboards for all critical emergencies, such as Syria and South Sudan
- Introduced a logistics plan that reduced costs by US\$25 million

## Common and Bilateral Logistics Services

WFP also provided logistics services to the humanitarian community in four ways:

- Bilateral logistics services
  - ◊ 63 humanitarian clients in 19 countries
- The UN Humanitarian Air Service
  - ◊ 20 countries of operation
  - ◊ 240,885 passengers
  - ◊ 258 destinations
  - ◊ 3,931 metric tonnes of light cargo
  - ◊ 2,637 medical and security evacuations
- The UN Humanitarian Response Depots
  - ◊ 65 humanitarian partners
  - ◊ 713 shipments worldwide
  - ◊ 104 countries served
  - ◊ USD50 million value in goods dispatched
- The Logistics Cluster
  - ◊ 13 active operations
  - ◊ 160 humanitarian organizations supported
  - ◊ Facilitated the delivery of 27,628 mt of relief supplies to 148 locations
