
Background

1. This document presents the management response to the recommendations of the summary evaluation report of WFP Policy on Capacity Development.
**Recommendation 1:** WFP should immediately elevate the organizational attention to capacity strengthening as a core function by creating a temporary, multi-stakeholder management transition team that will:

a) articulate WFP’s vision and strategy for capacity strengthening in line with the Integrated Road Map for 2017–2021, including conceptual and operational definitions for capacity strengthening as an issue to be mainstreamed in Strategic Objectives 1 to 3, as a programmatic focus in Strategic Objective 4, and as a transfer modality in the new Financial Framework;

b) define the staff roles, responsibilities and accountabilities for capacity strengthening as a functional responsibility and as mainstreamed into other programming areas;

c) review, revise and create practical tools and guidance for WFP’s capacity strengthening work in the context of its Policy on Country Strategic Plans (CSPs), including in humanitarian response; and

d) remain in place until the roll-out of the CSP approach is complete.

<td>Policy and Programme Division (OSZ), with support from the Nutrition Division (OSN), the Emergency Preparedness and Support Response Division (OSE), the Supply Chain Division (OSC) and divisions in the Partnership, Governance and Advocacy Department (PG) and the Resource Management Department (RM)</td>
<td>Partially agreed. While the multiple resourcing needs associated with the Integrated Road Map preclude the creation of a specific management transition team, WFP will ascribe roles, responsibilities and accountabilities in supporting capacity strengthening across functions, divisions and departments. It will continue to adapt tools, guidance and best practices to support WFP country offices with the formulation and implementation of CSPs. These tools include guidance on creating synergies in WFP’s capacity strengthening between government entities and civil society, reflecting the “whole of society” approach of WFP’s country strategic planning process.</td>

<td><strong>Recommendation 4:</strong> WFP should continue to strengthen its provisions for monitoring and reporting on all capacity strengthening work within 12 months by expanding the quantitative and qualitative information required in Standard Project Reports (SPRs) and trust fund reporting, including illustrative qualitative studies covering the contexts for both CSPs and interim CSPs.</td>
<td>Performance Management and Monitoring Division with support from OSZ</td>
<td>Agreed. Work is continuing alongside the roll-out of the CSP/interim CSP process. Templates for and guidance on SPRs have been reviewed to reflect capacity development interventions and results more clearly. Ongoing knowledge management initiatives aim to improve reporting on WFP’s engagement in capacity development through lessons learned and case studies. Funding permitting, these initiatives will continue.</td>
<td>Ongoing</td>

<tr>
<td><strong>Recommendation 5:</strong> Within six months, WFP should ensure that its internal and external communications reflect and support its strategic vision for capacity strengthening, including by presenting capacity development as one of WFP’s core organizational functions in all contexts.</td>
<td>Communications Division with support from OSZ</td>
<td>Partially agreed. A communication plan is being developed for the WFP Strategic Plan and the Integrated Road Map. Messages on country capacity strengthening will be developed and disseminated in the broader context of the WFP-wide communication plan.</td>
<td>End of 2017</td>
</tr>
<tr>
<td><strong>Recommendation 6:</strong> The 2009 policy update should remain in force until all elements of the Integrated Road Map are in place. WFP should then either revise the policy update or develop a new policy to articulate its strategic approach. The policy should be accompanied by dissemination tools that align with and support implementation of the Strategic Plan (2017–2021).</td>
<td>OSZ with support from OSN, OSE and OSC</td>
<td>Agreed. Management will determine whether to update the current policy or develop a new one when all of these evaluation recommendations have been implemented and the implementation of CSPs and interim CSPs has been assessed.</td>
<td>End of 2018 (tentative)</td>
