Internal Audit of WFP Management of Donor Funding (AR/15/13)

Management Comments

WFP management welcomes the observations made by the Office of the Inspector General (OIG) in its internal audit report on WFP Management of Donor Funding for the period 25 May and 31 July 2015.

Management appreciates the overall satisfactory result, as well as considers the absence of high-risk observations to be a significant achievement. The implementation of the agreed actions is well underway and WFP's Management is committed to ensure the timely implementation in accordance with the agreed timeframe.

Management appreciates the OIG's recognition of the positive practices and initiatives, including inter alia: the Corporate Partnership Strategy and the pro-active role of the RBs in assisting COs in the preparation of country specific funding strategies; the definition of a common reporting format for the Standard Project Report narrative, including consultations with donors; and the regular provision to donors of information and updates on the functioning and performance of WFP through consultations, the Management Plan and Operational and Development Resourcing updates.

Management thanks the meaningful collaboration and support and appreciates the opportunities to improve existing reporting mechanisms and donor reviews/assessments as well as strengthen the visibility of multilateral funding.
