

# Update on the Integrated Road Map

2017 Second Regular Session

WFP/EB.2/2017/4-A/1/Rev.1

**Integrated** *Road Map*

# Towards 2030: Positioning WFP for a zero hunger world

The **2030 Agenda for Sustainable Development** sets forth an ambitious, people-centred global framework of action to end poverty, hunger and inequality in the next 15 years.

WFP has embraced this **historic opportunity** by leading the way as the first United Nations agency to re-align our strategy, programme structure, financial management and reporting to the Sustainable Development Goals.

The **Integrated Road Map** involves four interrelated processes: the Strategic Plan (2017–2021), the Policy on Country Strategic Plans, the Financial Framework Review and the Corporate Results Framework.

This **integrated approach** transforms WFP's ability to help countries achieve the Sustainable Development Goals by 2030. It ensures our interventions are integrated across humanitarian and development objectives, and are better aligned with country-level actions.

# Benefits of the Integrated Road Map

Strategic Plan  
(2017–2021)

Country Strategic  
Plans

Financial  
Framework Review

Corporate Results  
Framework

**This integrated approach helps us to design better programmes aligned with national priorities to:**

Serve people in need – particularly those furthest behind – more effectively and efficiently

Support government policies with programmes aligned with national priorities

Orient emergency responses more strategically, while maintaining flexibility and agility

Respond flexibly to changing country needs while balancing humanitarian response and development needs

Better allocate resources to achieve results and measure impacts

Improve programme design and implementation through strengthened performance management and accountability systems

Enhance transparency in donor reporting and clearly communicate our distinct added value

Build more effective, long-term partnership with host governments and better collaborate with partners from the public and private sectors as well as other UN agencies

Facilitate more strategic and less fragmented engagement with the Executive Board
