NATURE OF THE DECREASE

1. Landside Transport Storage & Handling costs have been decreased with reduced scale of operations which triggered this Budget revisions.

JUSTIFICATION FOR THE REVISION

Summary of existing project activities

2. Initially the PRRO 200867 LTSH Matrix was prepared in July 2015 based on the requirements, structure and the scale of Operations as per initial plans and the average rate of LTSH rate / MT worked out was $ 86 / MT.

Conclusion and recommendation of the re-assessment

3. The LTSH Matrix was reviewed in May 2016 in light of the fact that two of the main warehouses were closed in addition to an EDP, bringing the substantial decrease in per MT LTSH rate. Moreover the LTSH analysis prepared in early May 2016 showed some surplus which also needed to be adjusted. Taking into account the above changes it reveals that the actual average LTSH rate stands at $ 61 / MT. The existing rate therefore is recommended to be adjusted.

Purpose of budget decrease

4. LTSH rate has decreased because two of our main warehouses in Multan & Karachi and one EDP in D. I. Khan has been closed due to reduced programme activities. Moreover decrease in LTSH is also attributed to the fact of including LTSH surplus in the ongoing matrix revision as well as reduction in transport rates. This has mainly contributed to the substantial reduction of LTSH cost which lead to the current LTSH Matrix revision.
