Revitalize the global partnership for sustainable development

End hunger, achieve food security and improved nutrition, and promote sustainable agriculture

WORLD FOOD PROGRAMME ZIMBABWE
Country Strategic Plan (2017 - 2021)

1 ROOT CAUSES OF HUNGER

- People, including refugees, can meet basic food and nutrition requirements during severe seasonal shocks
- Children have reduced stunting rates by 2025
- Smallholder farmers have access to well-functioning agricultural markets by 2030

2 WFP AND PARTNERS: BUILDING SUSTAINABLE SYSTEMS

- Building national and local capacity
- Partnerships
- Innovative supply chain solutions
- Modality choices
- Emergency preparedness
- Evidence-based analysis
- Technology and systems
- Technical expertise

FOCUS ON COMMUNITIES AND GOVERNMENT

3 ZERO HUNGER

- Rural households achieve food security and are resilient to shocks
- The social protection system ensures that vulnerable people can meet basic needs
- Partners are supported by cost-effective and efficient supply chain services
