

Strengthening Emergency Preparedness and Resilience in Haiti

PRRO 200618 (Budget revision n°. 4)

World Food Programme

Objectives

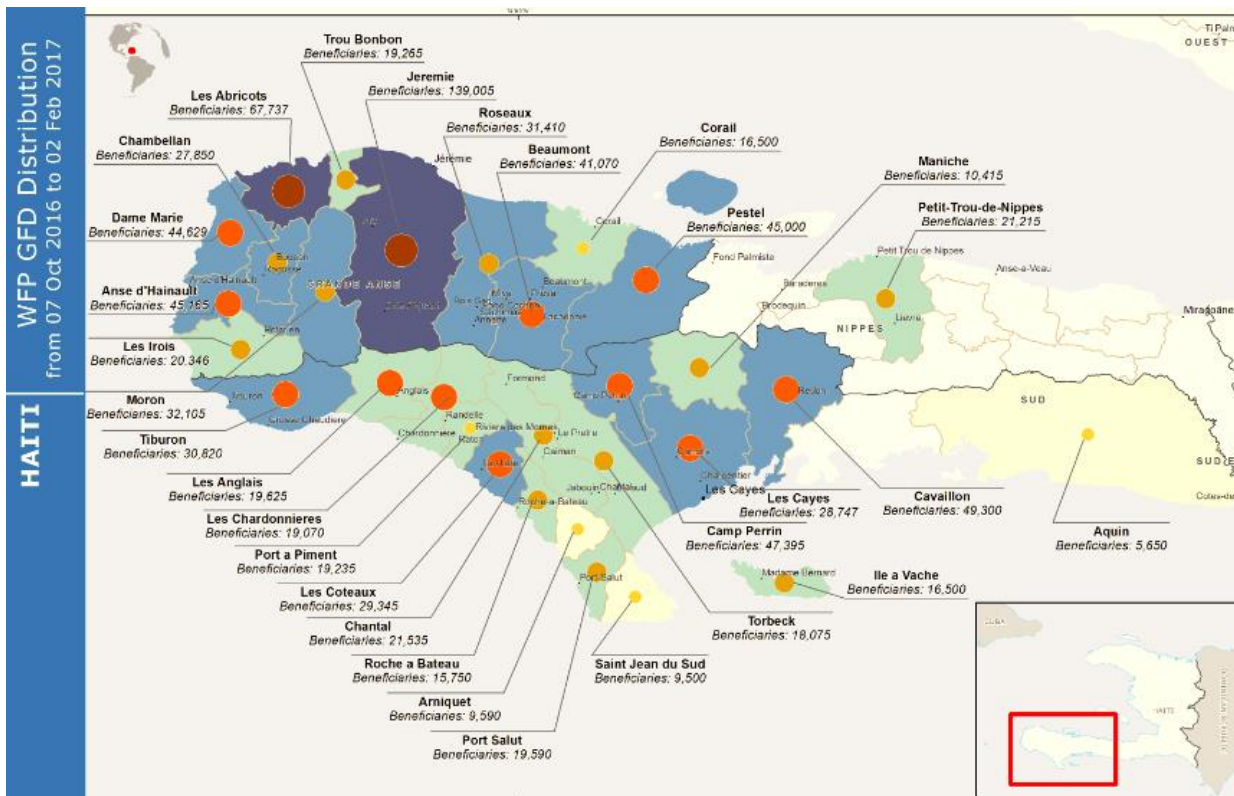

The purpose of the budget revision to Haiti's '*Protracted Relief and Recovery Operation*' (PRRO 200618) is to:

1. sustain post-Hurricane relief and recovery operations in the first semester of 2017;
2. continue programmes to prevent chronic malnutrition, build resilience and strengthen institutional capacity; *and*
3. allow for a transition towards the Country Strategic Plan (CSP).

**Budget increase of USD 56,610,907
with a 15-month extension from 1 April 2017 to 30 June 2018**

Hurricane Response

WFP responded through an integrated approach combining general food or cash distributions and blanket supplementary feeding

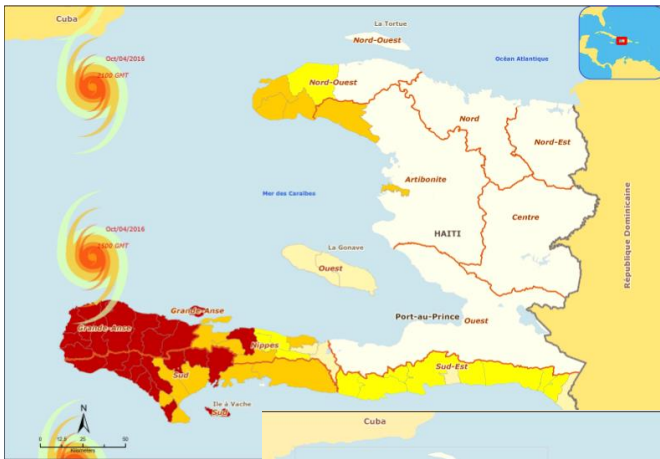

➤ Since the beginning of the operation, WFP has reached:

- **925,000 people with general food distributions** for a total of 18,050 mt of food;
- **45,000 children under five and 12,600 PLW with specialized nutritious food;**
- **72,000 people with cash-based transfers** of an amount of 4,080 HTG (~ US\$60).

Emergency Food Security Assessment

Around 38% of the population in the most affected areas are food insecure (~1.5 million people), including 5% severely food insecure (~280,000 people).

Rapid EFSA – October 2016

EFSA – December 2016

- Reduction from approximately 1 million to 400,000 people facing food insecurity in most hurricane-affected areas.
- However:
 - ‘Pockets’ of high food insecurity remain in some rural areas;
 - ‘Hike’ in food insecurity in other areas previously affected by the drought.
- Almost 2/3 of households adopted coping mechanisms (21% crisis; 17% emergency).
- Need to continue assistance as food insecurity is likely to increase during the lean season through June 2017.

Planned Activities

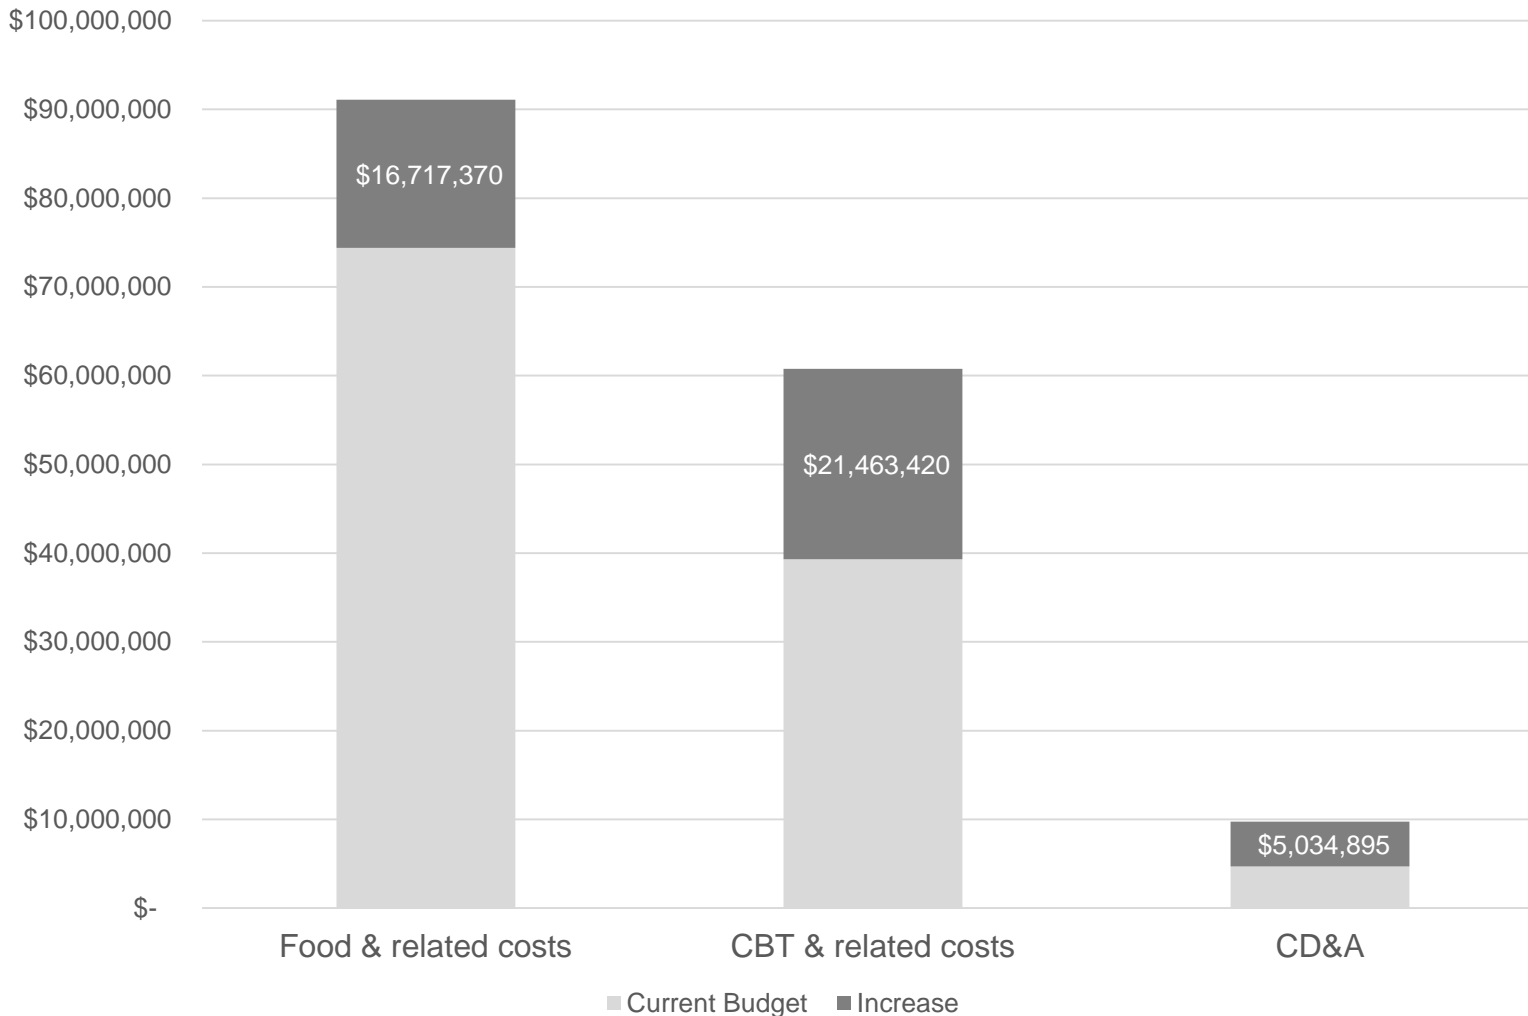

RELIEF RESPONSE (Jan./Mar. 17)	➤ General Food Assistance (In-kind/CBT)	Households
	➤ Prevention of Acute Malnutrition (BSF)	Children 6-59 m. & PLW

RECOVERY OPERATIONS (Mar./June. 17)	➤ Targeted Seasonal Food Assistance *	Households
	➤ Prevention of Chronic Malnutrition	Children 6-59 m. & PLW
	➤ Food for Asset - Recovery (In-kind/CBT)	Households

* Also during lean season in 2018.

OTHER ON-GOING	➤ Prevention of Chronic Malnutrition	Children 6-24 m. & PLW
	➤ Food for Asset - Resilience (In-kind/CBT)	Households
	➤ Contingency Planning	-
	➤ Capacity Building (social protection / preparedness)	-

Cost (United States dollars)
